Property tax is booked at \$1,667/month (\$20,004 T12) — confirm actual Frio County bills in diligence; this may be accrual rather than cash tax. Insurance is booked at \$1,210.31/month. R&M of \$853 T12 is unusually low for a 20-key hotel; buyer should diligence whether this is a true run-rate or a quiet period after the 2024 renovation. June and July 2026 expense lines are identical in the source file.

What this summary is not

This is a 1–2 page extract of the owner P&L, not the workbook. The full Excel file is the document to underwrite from. It is not a quality of earnings report, not audited, and not adjusted to a standardized hotel chart of accounts (no GOP / departmental rooms profit). Owner’s salary / owner benefit beyond the “Management, Cleaning” line is not broken out here — ask for SDE / owner-benefit detail if you underwrite to cash-to-owner rather than NOI.

Occupancy mix (from the P&L, not a CO legal opinion)

T12 nightly hotel is **\$121,132 (76.2%)**; monthly leases **\$34,750 (21.9%)**; other rental not mapped to those two lines **\$3,086 (1.9%)**. A City of Dilley Commercial Certificate of Occupancy listing business type “Hotel” (July 9, 2024, Permit 24-07-09) is in the packet. The P&L documents that monthly leases are currently in operation. This page does not interpret zoning or CO as a legal dual-use opinion.

YoY context

Prior T12 NOI of \$40,809 covers Aug 2024–Jul 2025, which includes lease-up after the 2024 reopening. +70% YoY is the change in that NOI versus the current T12. It is not a run-rate that can be extrapolated forward, and it is not a representation of future performance.
